

Date: 2 Aug 2025

To Whom It May Concern,

This is to certify that **Mr. Laxmi Pd. Rimal** was employed with Parsedom Inc. as a **Software Developer Intern** (Remote) from 22 May, 2025 to September 25 July, 2025

During his tenure, Mr. **Rimal** contributed significantly to various projects and demonstrated strong technical expertise. His key responsibilities included:

Web Scraping & Backend Development:

- Developed and maintained large-scale web scraping solutions using **Python** and **Node.js** to automate data collection from different webpages
- Designed and optimized **scalable scraping pipelines** for structured and unstructured data, ensuring accuracy, efficiency, and compliance with website policies.
- Integrated **proxy rotation**, **captcha solving**, and **headless browser automation** to ensure uninterrupted data extraction at scale.
- Conducted performance monitoring, debugging, and optimization to improve scraping reliability and backend speed.
- Collaborated with team members to design efficient data models and optimize backend workflows for automation-driven projects.

Throughout his time at Parsedom, Laxmi exhibited excellent problem-solving skills, a deep understanding of cloud technologies, and a proactive approach to tackling challenges. His contributions have been highly valuable to the organization.

We thank him for his dedication and hard work and wish him the best in his future endeavors.

For Parsedom Inc.
